

ARMoured TROOP-CARRIER

BTR-70M

Armored troop carrier BTR-70M is a wheeled machine with armament, armor protection and high maneuverability. It has high dynamic abilities, long fuel distance and high traffic ability.

Complete mass, with crew, kg: 12000

Crew, person: 10

Overall dimensions: Length/ width/ height, mm: 7535 / 2800 / 2320

Number of Engines: 1

Type and mark of the engine: KAMA3-740.11.240 Diesel

Maximum power of engine, h.p./kW: 240(176,6)

Maximum twisting moment, n.m (kgs.m): 785(80)

Max speed on highway, km/h: 95

Fuel consumption for 100 km: 48

Fuel distance on highway, km: 550

Overcome obstacles by machine:

- maximum gradient on solid ground, deg: 30
- maximum side slope, deg: 25

Armament: - machine- gun KPVT, calibre, mm: 14,5

- machine- gun PKT, calibre, mm: 7,62

Maximum sighting range, m:

KPVT: 2000

PKT: 1500

- Vertical firing angle, deg: from -5 to +30
- Horizontal firing angle, deg: 360

Optic Periscope and Night Vision

- PP-61AM Sight optic periscope
- TVNO-2 Device of night vision of the driver

Time of delivery: 90 Days

Manufactured in Azerbaijan
