

## CF98-A 9mm Pistol

### Overview:

Developed for military and law enforcement personnel, under rail for tactical illuminator and laser devices, high durability and reliability in combat environment.

### Specification:

- ▶ Calibre: 9×19mm
- ▶ Overall length: 190mm
- ▶ Effective range: 50m
- ▶ Fire mode: Semi-automatic
- ▶ Weight (with an empty magazine): 800g
- ▶ Magazine capacity: 15 Rd

### Key features:

- ▶ Hammer fired Modular Pistol
- ▶ Double/single action
- ▶ Ambidextrous safety/de-cocking lever
- ▶ Simple field stripping

## 92C 9mm Self-defense Pistol

### Overview:

Developed for special forces operators and high-rank commanding officers, designed for modern warfare and complex environment, an ideal choice of concealed carry and self-defense, with full ergonomic features and reliability.

### Specification:

- ▶ Calibre: 9×19mm
- ▶ Overall length: 165mm
- ▶ Effective range: 25m
- ▶ Fire mode: Semi-automatic
- ▶ Weight (with an empty magazine): 700g
- ▶ Magazine capacity: 7 Rd

### Key features:

- ▶ Subcompact single-stack
- ▶ Striker fired pistol
- ▶ Ambidextrous safety
- ▶ Firing pin indicator

## CS/LP5 9mm Self-defense Pistol

### Overview:

Compact pistol developed for military and law enforcement personnel with high accuracy, an ideal choice of concealed carry and self-defense.

### Specification:

- ▶ Calibre: 9×19mm
- ▶ Overall length: 165mm
- ▶ Effective range: 50m
- ▶ Fire mode: Semi-automatic
- ▶ Weight (with an empty magazine): 700g
- ▶ Magazine capacity: 7 Rd

### Key features:

- ▶ Subcompact single-stack
- ▶ Hammer fired Modular Pistol
- ▶ Double single action
- ▶ Ambidextrous safety/de-cocking lever

## NP42 9mm Pistol

### Overview:

Developed for military and law enforcement personnel, with large magazine capacity, polymer grip with anti-skid chequer.

### Specification:

- ▶ Calibre: 9×19mm
- ▶ Overall length: 190mm
- ▶ Effective range: 50m
- ▶ Fire mode: Semi-automatic
- ▶ Weight (with an empty magazine): 850g
- ▶ Magazine capacity: 15 Rd/10 Rd

### Key features:

- ▶ Hammer fired Modular Pistol
- ▶ Double single action
- ▶ Ambidextrous safety/de-cocking lever
- ▶ Simple field stripping

## CS/LP11B 9mm Pistol

### Overview:

Developed for special forces operators and law enforcement agents, designed for modern warfare and complex environment, an ideal choice of sidearm with trigger safety, firing safety and drop safety.

### Specification:

- ▶ Calibre: 9×19mm
- ▶ Overall length: 190mm
- ▶ Effective range: 50m
- ▶ Fire mode: Semi-automatic
- ▶ Weight (with an empty magazine): 700g
- ▶ Magazine capacity: 15 Rd

### Key features:

- ▶ Compact design
- ▶ Striker fired pistol
- ▶ Multiple safety systems

# CS/LP8A 9mm Revolver

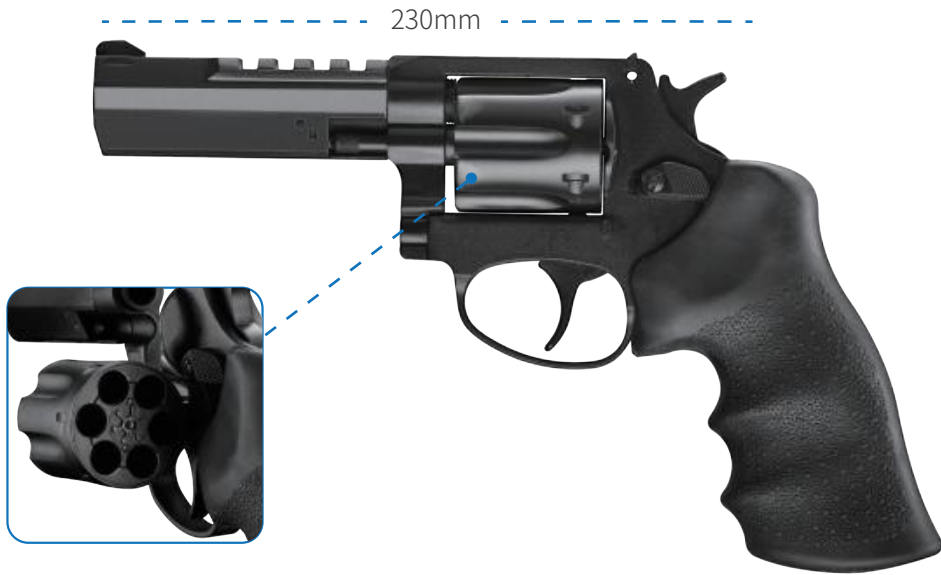

## Overview:

Specifically developed to accommodate .38S&P+P full metal jacket ammunition, top rail to fit optical sights.

## Specification:

- ▶ Calibre: .38 Spl
- ▶ Overall length: 230mm
- ▶ Effective range: 50m
- ▶ Fire mode: Semi-automatic
- ▶ Weight: 800g
- ▶ Capacity: 6 Rd

## Key features:

- ▶ High reliability
- ▶ Single action/double action
- ▶ Lightweight

# CS/LS7 9mm Submachine Gun

## Overview:

Developed for special forces operators and law enforcement agents, designed for modern warfare and complex CQB environment with full ergonomic features and reliability.

## Key feature:

- ▶ Polymer structure
- ▶ Ambidextrous fire mode selector
- ▶ Low recoil and high rate of fire
- ▶ Lightweight and compact

	CS/LS7-A	CS/LS7-B	CS/LS7-C	CS/LS7-D
Calibre	9×19mm	9×19mm	9×19mm	9×19mm
Overall length	650mm	432mm-670mm	480mm-680mm	340mm
Weight	2.8kg(with an empty magazine)	2.6kg(with an empty magazine)	2.8kg(with an empty magazine)	2.1kg(with an empty magazine)
Effective range	200m	200m	200m	200m
Fire mode	Semi/full-auto	Semi/full-auto	Semi/full-auto	Semi/full-auto
Magazine capacity	30 Rd/20 Rd	30 Rd/20 Rd	30 Rd/20 Rd	30 Rd/20 Rd

## CS/LS3 9mm Submachine Gun

### Overview:

Built for CQB environments with extraordinary performance. Many positive feedbacks were received from military and law enforcement personnel overseas.

### Key features:

- ▶ Polymer construction
- ▶ Compact size
- ▶ Low recoil and high rate of fire

### Specification:

- ▶ Calibre: 9 × 19mm
- ▶ Overall length: 505mm-675mm
- ▶ Weight (with an empty magazine): 3.2kg
- ▶ Effective range: 150m
- ▶ Fire mode: Semi/full-auto/burst
- ▶ Magazine capacity: 30 Rd

## CS/LS2 9mm Submachine Gun

### Overview:

Engineered for special forces operators and secret service agents, attached with a suppressor for less flash, smoke and noise signatures. An ideal choice for CQB scenarios and self-defense.

### Key features:

- ▶ Suppressor attached to muzzle
- ▶ Grip safety
- ▶ Lightweight and compact

### Specification:

- ▶ Calibre: 9 × 19mm
- ▶ Overall length: 500mm
- ▶ Weight (with an empty magazine): 2.3kg
- ▶ Effective range: 150m
- ▶ Fire mode: Semi/full-auto
- ▶ Magazine capacity: 30 Rd

## CS/LR17 7.62mm Assault Rifle

### Overview:

Engineered as new generation modular weapon system for special forces operators and law enforcement agents to adapt multiple combat environments and mission requirements.

Folding stock -

Retractable stock  
(Expanded length: 960mm)

### Key features:

- ▶ Modular design
- ▶ Polymer body
- ▶ Lightweight

### Specification:

- ▶ Calibre: 7.62x39mm
- ▶ Overall length 720mm-960mm
- ▶ Weight: 3.8kg (with an empty magazine)
- ▶ Effective range: 400m
- ▶ Fire mode: semi/full-auto
- ▶ Magazine capacity: 30Rd

# CS/LR11 7.62mm Assault Rifle

## Overview:

Based on AK platform, developed under new product concept to perform in modern warfare, extremely reliable.

## Specification:

- ▶ Calibre: 7.62x39mm
- ▶ Overall length: 700mm-943mm
- ▶ Weight: 3.9kg (with an empty magazine)
- ▶ Effective range: 400m
- ▶ Fire mode: semi/full-auto
- ▶ Magazine capacity: 30 Rd

## Key features:

- ▶ Piston driven
- ▶ Extremely reliable
- ▶ Simple field stripping
- ▶ Foldable stock

# Type B1 7.62mm Assault Rifle Series

## Overview:

Built with classical platform structure, featured by its reliability and low failure rate.

## Type B1 7.62mm Assault Rifle

## Type B1-1 7.62mm Assault Rifle

## Key features:

- ▶ Piston driven
- ▶ Capable of launching rifle grenade
- ▶ High reliability

	Type B1 7.62mm Assault Rifle	Type B1-1 7.62mm Assault Rifle
Calibre	7.62x39mm	7.62x39mm

Weight	3.8kg (with an empty magazine)	3.8kg (with an empty magazine)
Effective range	400m	400m
Fire mode	semi/full-auto	semi/full-auto
Magazine capacity	30 Rd	30 Rd

# Type 56 7.62mm Assault Rifle Series

**Overview:**  
Based on the famous AK plantform,built to perform in harsh environments,featured by its durablity and simplicity to operate.

Type 56 7.62mm Assault Rifle

**Key features:**

- ▶ Piston driven
- ▶ High reliability
- ▶ Simple field stripping

Type 56-1 7.62mm Assault Rifle

Type 56-2 7.62mm Assault Rifle

Magazine capacity	30 Rd	30 Rd	30 Rd

# Type 56-1A 7.62mm Assault Rifle

**Overview:**  
Derived from the Type 56 series assault rifle,upgraded with multiple tactical designs and picatinny rails to fit various tactical attachments.

**Key features:**

- ▶ Piston driven
- ▶ Picatinny rail
- ▶ Ergonomic design

Retractable stock

**Specification:**

- ▶ Calibre: 7.62x39mm
- ▶ Overall length: 874mm-945mm
- ▶ Weight: 4.3kg (with an empty magazine)
- ▶ Effective range: 400m
- ▶ Fire mode: semi/full-auto
- ▶ Magazine capacity: 30 Rd

# Type 97 5.56mm Assault Rifle Series

**Overview:**  
Famous sibling of Type 95 Assault Rifle. Developed for oversea market with steady recoil and high controllability.

Type 97A 5.56mm Assault Rifle

Type 97 5.56mm Assault Rifle

	Type 97A 5.56mm Assault Rifle	Type 97 5.56mm Assault Rifle
Calibre	5.56x45mm NATO	5.56x45mm NATO

Weight	3.6kg(with an empty magazine)	3.3kg(with an empty magazine)
Effective range	400m	300m
Fire mode	semi/burst/full-auto	semi/burst/full-auto
Magazine capacity	30 Rd	30 Rd

**Key features:**

- ▶ Polymer body
- ▶ Lightweight and compact
- ▶ Multiple fire mode

# Type CQ 5.56mm Assault Rifle Series

**Overview:**  
Based on AR-15 plantform for military and law enforcement to perform in all environments, with high accuracy and ergonomic design.

CQ-A 5.56mm Assault Rifle

CQ-B 5.56mm Assault Rifle

**Specification:**

- ▶ Calibre: 5.56x45mm NATO
- ▶ Overall length: 787mm-883mm
- ▶ Weight: 3.3kg (with an empty magazine)
- ▶ Effective range: 460m
- ▶ Fire mode: semi/full-auto
- ▶ Magazine capacity: 30 Rd

**Key features:**

- ▶ Direct impingement
- ▶ Ambidextrous fire control system
- ▶ Modular design
- ▶ Multiple tactical accessories attachable

**Specification:**

- ▶ Calibre: 5.56x45mm NATO
- ▶ Overall length:1003mm
- ▶ Weight: 3.4kg (with an empty magazine)
- ▶ Effective range: 460m
- ▶ Fire mode: semi/full-auto
- ▶ Magazine capacity: 30Rd

**Key features:**

- ▶ Direct impingement
- ▶ High reliability
- ▶ Simple field stripping and easy maintenance

# CQ-D 5.56mm Assault Rifle

## Overview:

Optimized on the basis of mature platform that was tested and favored by many countries' military and law enforcement personnel.  
Built to perform in all combat environments.

CQ-D 5.56mm Assault Rifle(Standard)

CQ-D 5.56mm Assault Rifle (Standard)					
Calibre	Overall length	Weight	Effective range	Fire mode	Magazine capacity
5.56x45mm NATO	900mm	3.7kg(with an empty magazine)	460m	semi/full-auto	30 Rd

## Key features:

- ▶ Short-stroke piston driven
- ▶ Ambidextrous fire mode selector
- ▶ Modular design
- ▶ Multiple tactical accessories attachable

# CS/LR4A 7.62mm Sniper Rifle

## Overview:

Developed for military and law enforcement snipers to produce accurate shots within 1000m and fit various modern combat scenarios.

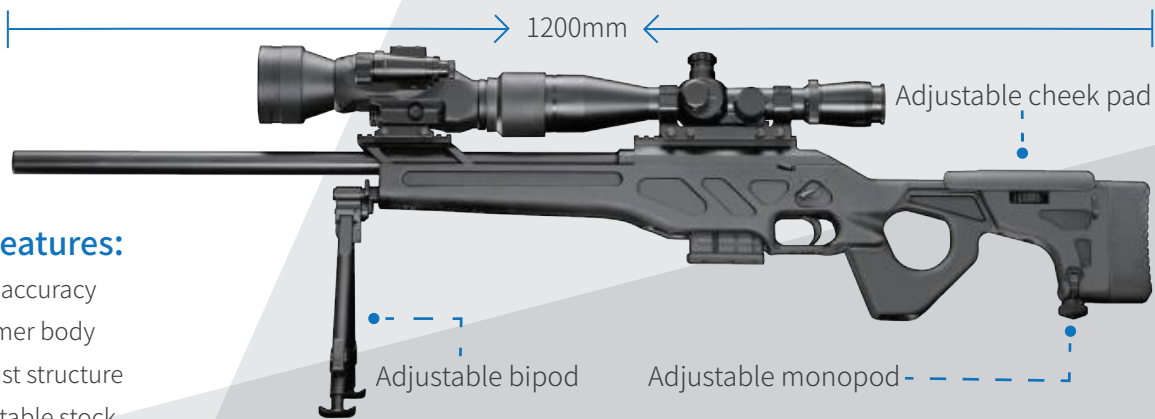

## Specification:

- ▶ Calibre: 7.62×51mm NATO
- ▶ Overall length: 1200mm
- ▶ Weight: 6.5kg (with an empty magazine)
- ▶ Effective range: 800m
- ▶ Performance: Sub MOA accuracy guarantee (match grade ammo)
- ▶ Fire mode: bolt action
- ▶ Magazine capacity: 5 Rd

## Key Features:

- ▶ High accuracy
- ▶ Polymer body
- ▶ Robust structure
- ▶ Adjustable stock

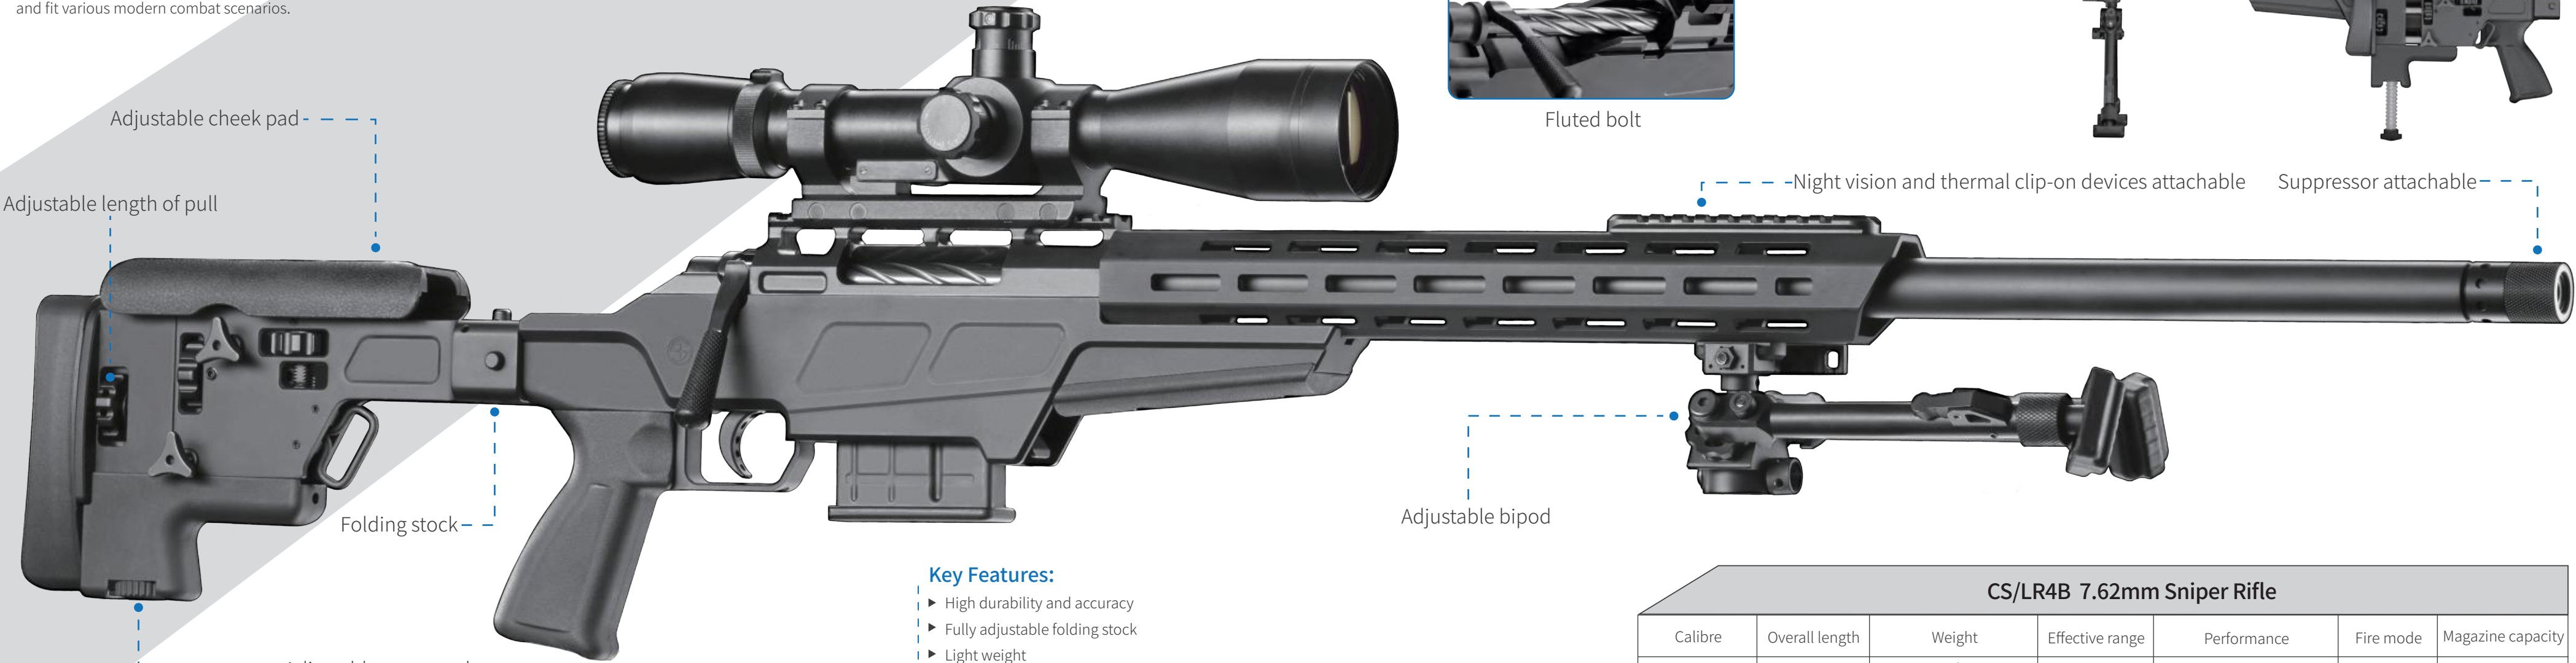

# CS/LR4B 7.62mm Sniper Rifle

## Overview:

An excellent sniper rifle with modular picatinny rail, developed for military and law enforcement snipers to produce accurate kills and fit various modern combat scenarios.

Fluted bolt

## Key Features:

- ▶ High durability and accuracy
- ▶ Fully adjustable folding stock
- ▶ Light weight
- ▶ Multiple tactical accessories attachable

CS/LR4B 7.62mm Sniper Rifle						
Calibre	Overall length	Weight	Effective range	Performance	Fire mode	Magazine capacity
7.62×51 NATO	1200mm	6.2kg (with an empty magazine)	800m	Sub MOA accuracy guarantee (match grade ammo)	bolt action	5 Rd

# CS/LR24 .338 Sniper Rifle

**Overview:**  
Developed for military and law enforcement snipers to produce lethal shots with high accuracy,a modern larger calibre sniper rifle with modular picatinny rails and a heavy free-float barrel to meet the demands of various modern sniping operations.

- Key Features:**
- ▶ High accuracy
  - ▶ Modular design
  - ▶ Fully adjustable folding stock
  - ▶ Light weight
  - ▶ Multiple tactical accessories attachable

CS/LR24 .338 Sniper Rifle						
Calibre	Overall length	Weight	Effective range	Performance	Fire mode	Magazine capacity
.338 Lapua Magnum	1300mm	7kg (with an empty magazine)	1200m	Sub MOA accuracy guarantee (match grade ammo)	bolt action	5 Rd

# Type 85 7.62mm Semi-automatic Sniper Rifle

## Overview:

Developed for military and law enforcement snipers to produce accurate shots within 800m.

### Key Features:

- ▶ Short-stroke,gas-piston system
- ▶ Classic structure design
- ▶ High magazine capacity
- ▶ Robust structure

Type 85 7.62mm Semi-automatic Sniper Rifle					
Calibre	Overall length	Weight	Effective Range	Fire mode	Magazine capacity
7.62×54mmR (steel case cartridge ONLY)	1220mm	4.4kg (with an empty magazine)	800m	Semi-automatic	10 Rd

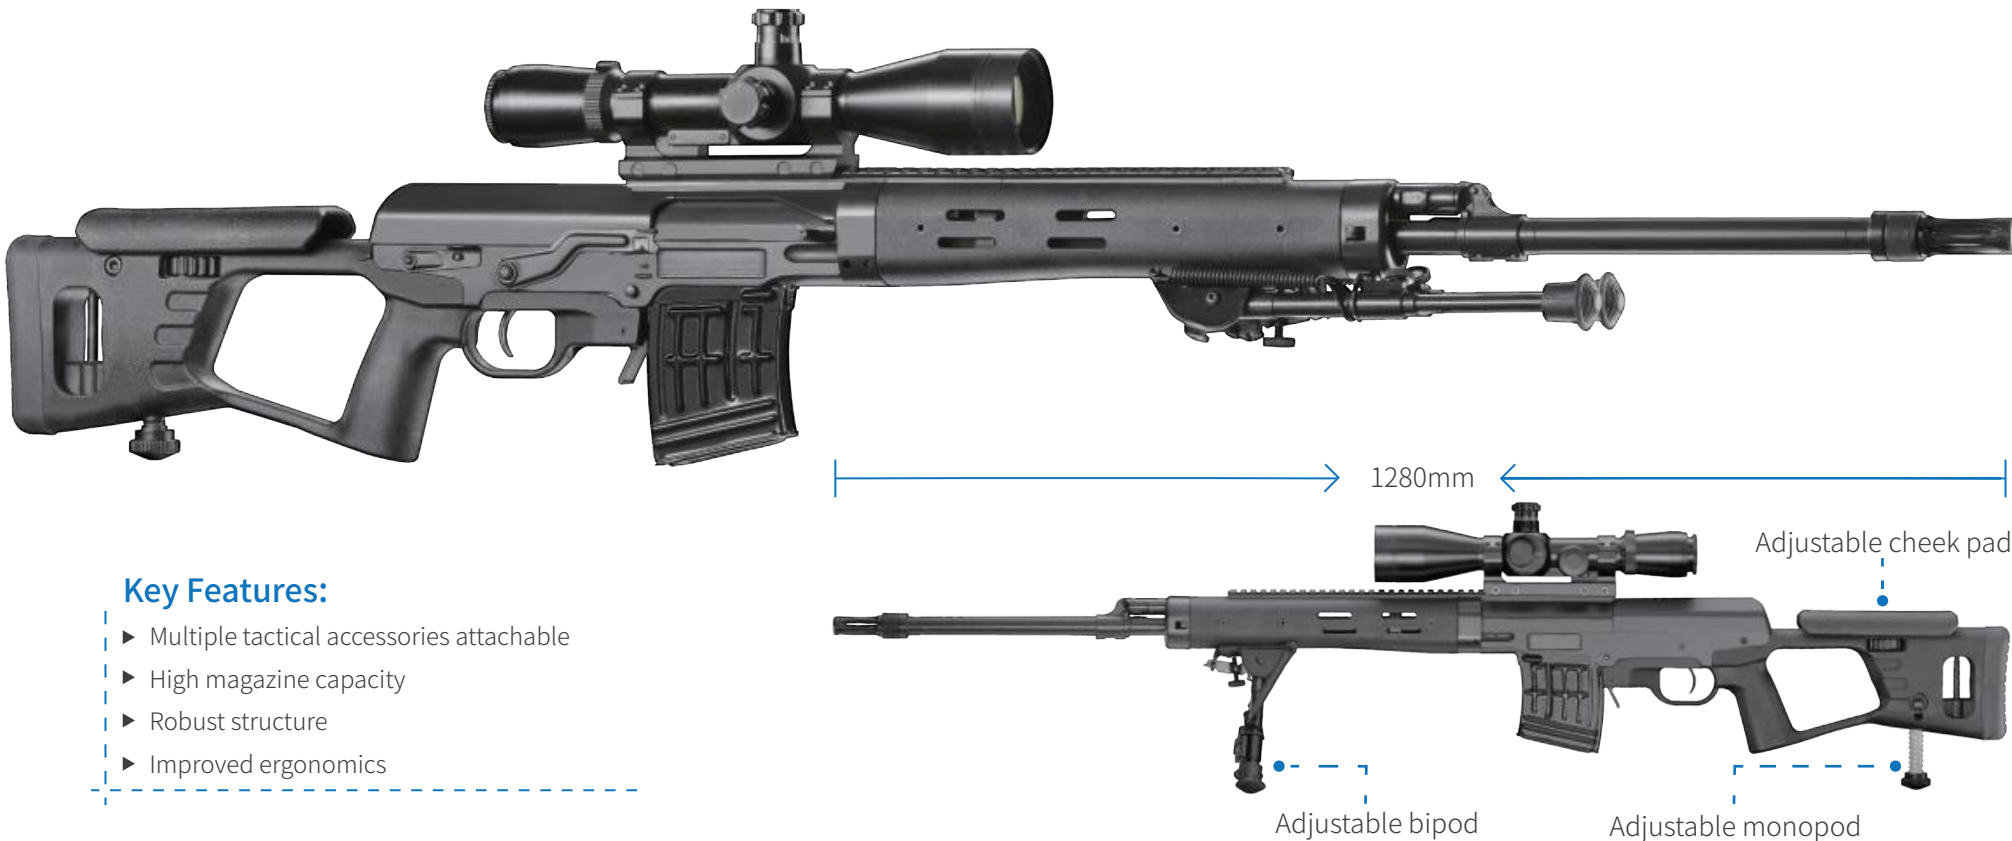

# CS/LR19 7.62mm Semi-automatic Sniper Rifle

## Overview:

Developed for modern marksmanship, based on type 85 sniper rifle with adaptive modification to produce accurate shots within 800m.

### Key Features:

- ▶ Multiple tactical accessories attachable
- ▶ High magazine capacity
- ▶ Robust structure
- ▶ Improved ergonomics

CS/LR19 7.62mm Semi-automatic Sniper Rifle					
Calibre	Overall length	Weight	Effective Range	Fire mode	Magazine capacity
7.62×54mmR (steel case cartridge ONLY)	1280mm	5.6kg (with an empty magazine)	800m	Semi-automatic	10 Rd

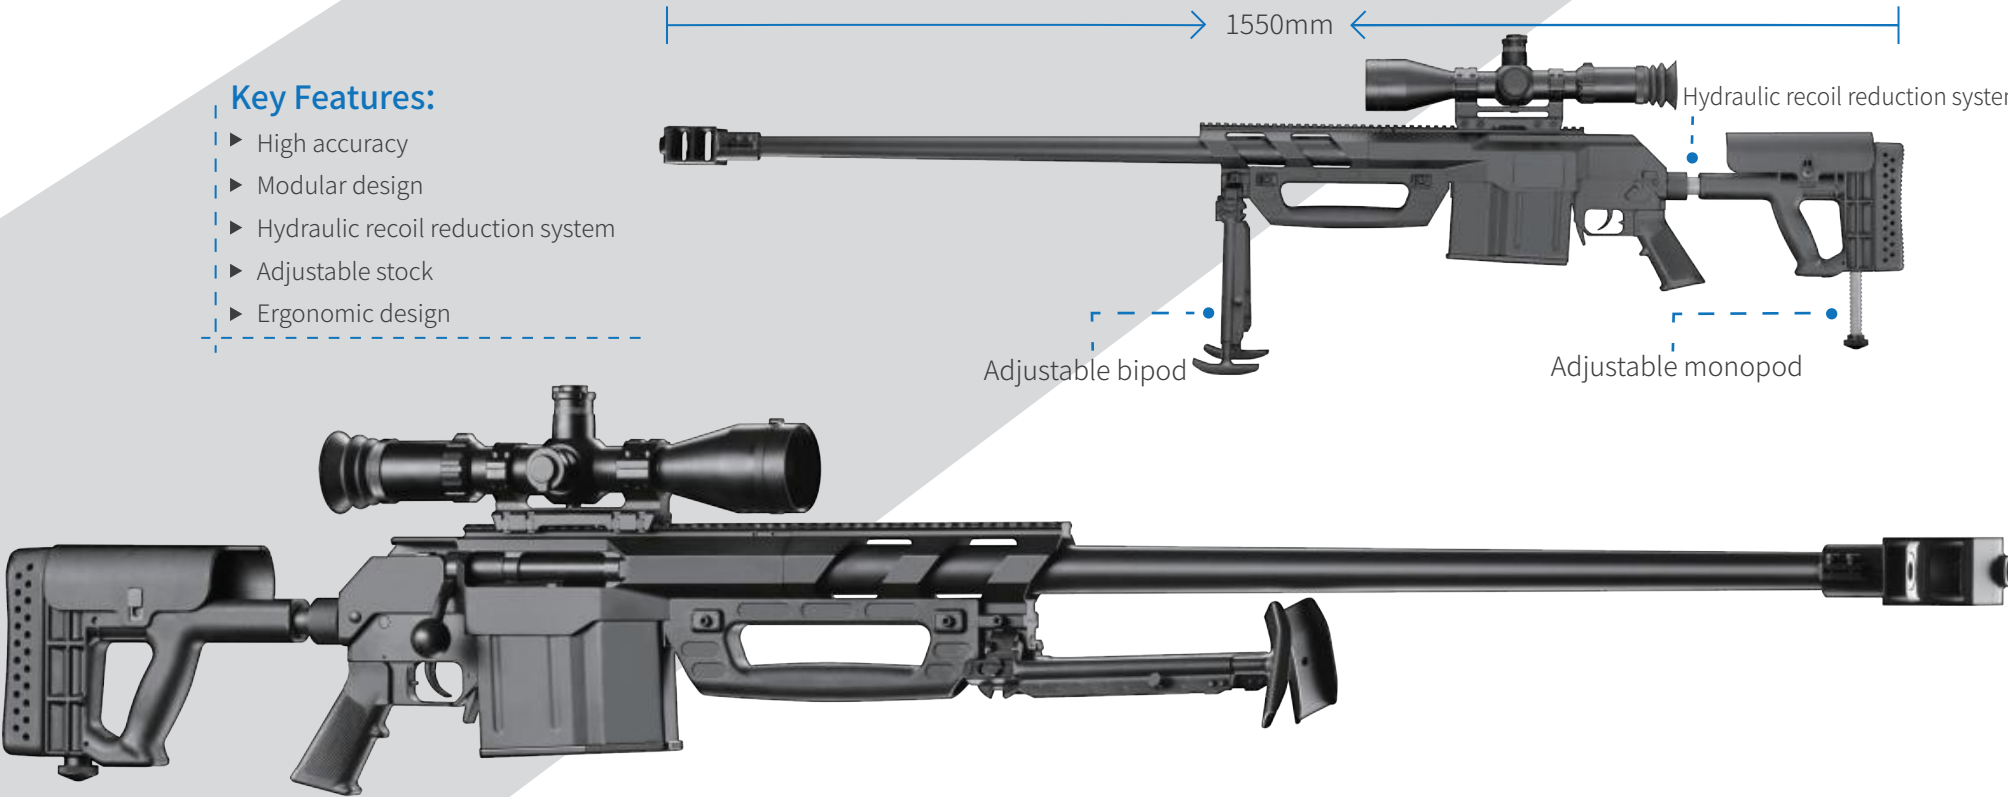

# CS/LR13 .50 Sniper Rifle

## Overview:

Developed for military and law enforcement snipers to launch accurate strikes against light armored targets within 1500m.

### Key Features:

- ▶ High accuracy
- ▶ Modular design
- ▶ Hydraulic recoil reduction system
- ▶ Adjustable stock
- ▶ Ergonomic design

CS/LR13 .50 Sniper Rifle						
Calibre	Overall length	Weight	Effective range	Performance	Fire mode	Magazine capacity
12.7×99mm NATO	1550mm	13kg (with an empty magazine)	1500m	Sub MOA accuracy guarantee (match grade ammo)	bolt action	5 Rd

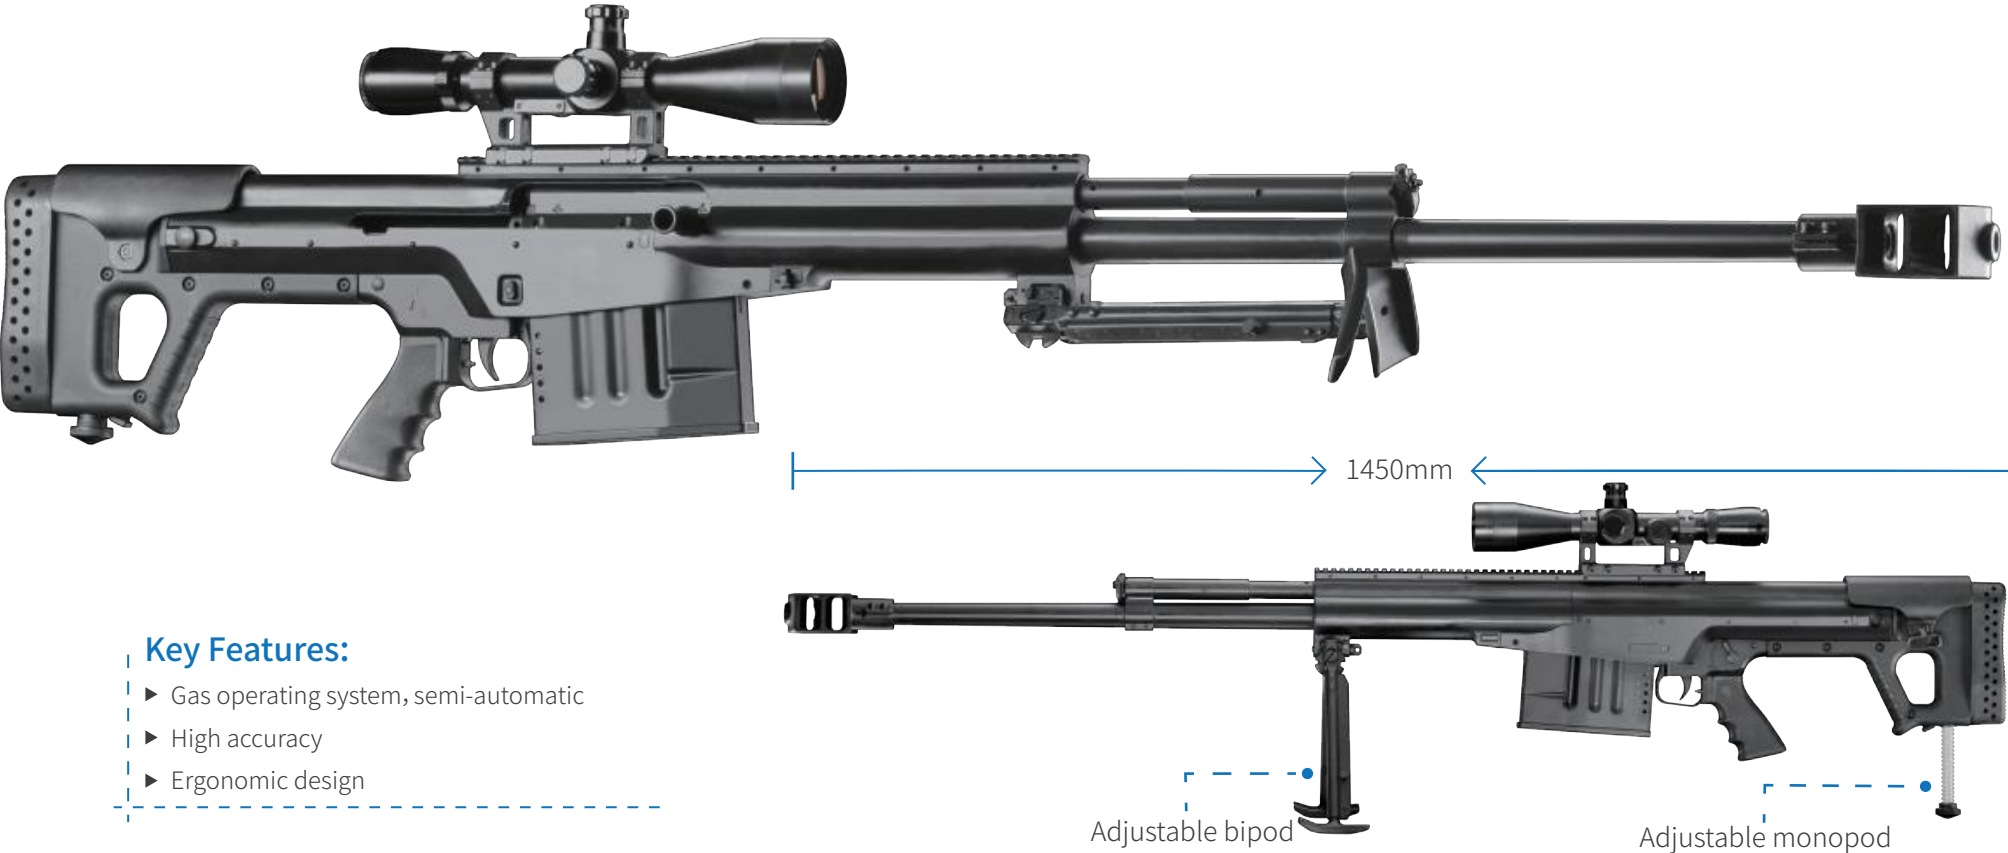

# CS/LR12 12.7mm Semi-automatic Sniper Rifle

## Overview:

Large-calibre sniper riple developed for military and law enforcement special operation units to produce continuous high-stopping-power shots within 1500m.

### Key Features:

- ▶ Gas operating system, semi-automatic
- ▶ High accuracy
- ▶ Ergonomic design

CS/LR12 12.7mm Semi-automatic Sniper Rifle					
Calibre	Overall length	Weight	Effective range	Fire mode	Magazine capacity
12.7×108mm	1450mm	14.9kg (with an empty magazine)	1500m	Semi-automatic	5 Rd

# Anti-aircraft Machine Gun Series

## Overview :

Built to intercept low-flying aircrafts with ground strike capability.

## Key features:

- ▶ Piston driven gas operating system
- ▶ Easy conversion
- ▶ Long effective range
- ▶ Belt-fed

	W85 12.7mm Anti-aircraft Machine Gun	CS/LM3 .50 Anti-aircraft Machine Gun
Calibre	12.7×108mm	12.7×99mm NATO
Overall length	2010mm	2170mm
Weight	41kg	40kg
Effective range	1600m	1600m
Ammo capacity	60 Rd	60 Rd
Laying limits	120° azimuth, -15° to +25° elevation (ground mode) 360° unlimited azimuth, -15° to +80° elevation (anti-aircraft mode)	120° azimuth, -15° to +25° elevation (ground mode) 360° unlimited azimuth, -15° to +80° elevation (anti-aircraft mode)

# CS/LM6 .50 Heavy Machine Gun

Overview:

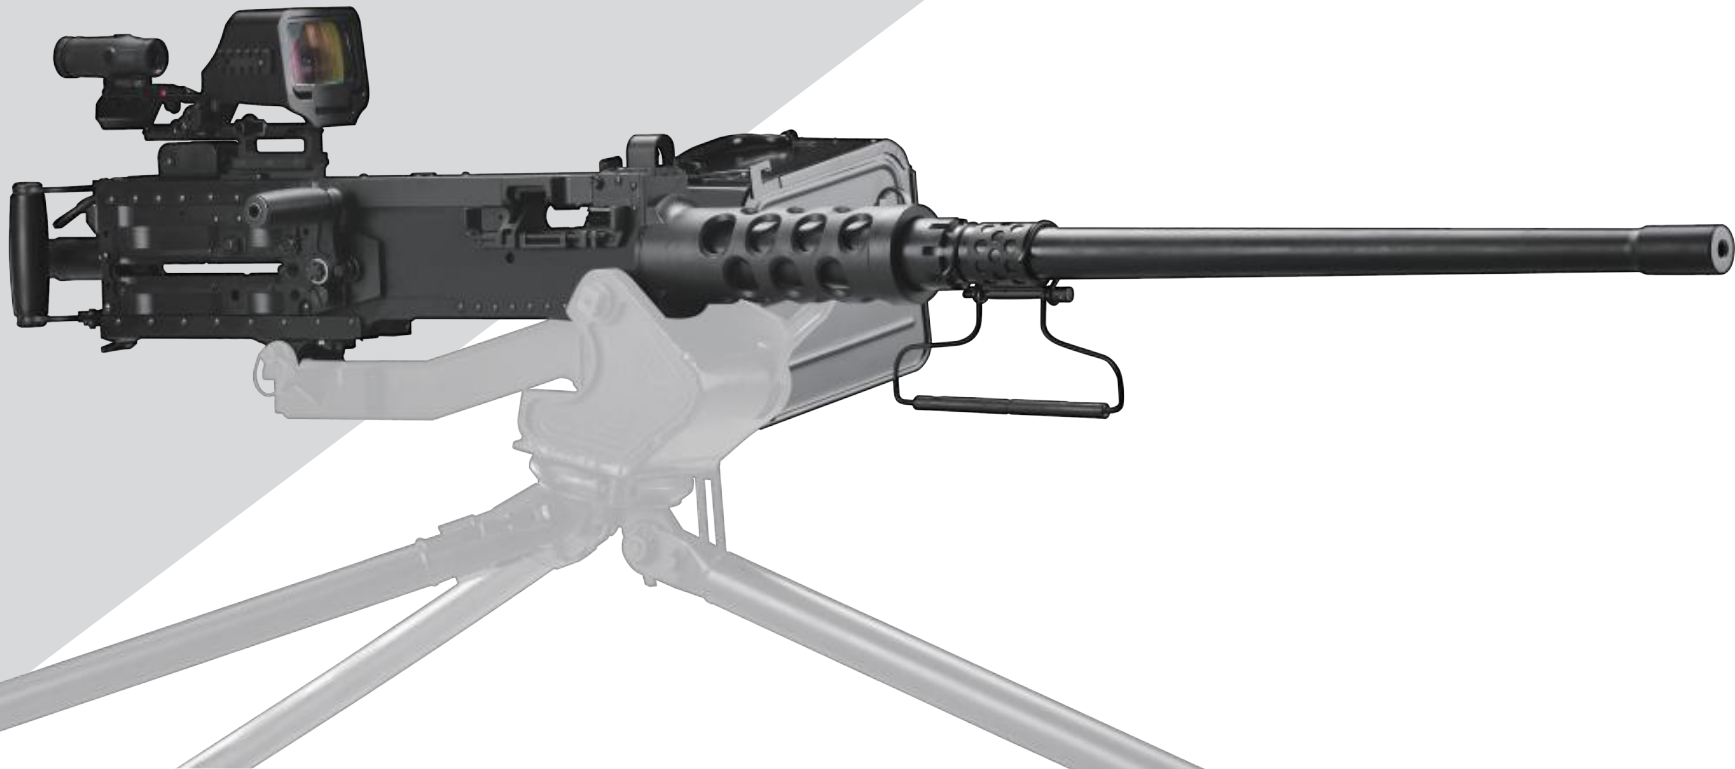

Designed to be mounted on vehicles, can be converted to mobile heavy machine gun if required.

Specification:

- ▶ Calibre: 12.7×99mm NATO
- ▶ Overall length: 1660mm
- ▶ Weight: 38kg (body),20kg (tripod)
- ▶ Fire mode: full-auto
- ▶ Effective range: 1600m
- ▶ Ammo capacity: 60 Rd

Key features:

- ▶ Long effective range
- ▶ High lethality
- ▶ Belt-fed

# Type 80 Series

Overview:

Optimized on the basis of classical platform, developed to offer sustained suppressive fire. Can be mounted on bipods or tripods.

## Type 80 7.62mm General-purpose Machine Gun

Key features:

- ▶ Long effective range
- ▶ Robust structure
- ▶ Simple field stripping
- ▶ Belt-fed

## Type 80 Modified 7.62mm General-purpose Machine Gun

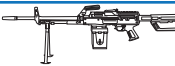

--- Aiming devices attachable

Key features:

- ▶ Long effective range
- ▶ Robust structure
- ▶ Simple field stripping
- ▶ High reliability
- ▶ Belt-fed

Type 80 7.62mm General-purpose Machine Gun Series

Calibre	Overall length	Weight	Effective range	Ammo capacity	Fire mode
7.62×54mmR	1195mm	8.5kg(with bipod) 13.6kg(with tripod)	800m(with bipod) 1000m(with tripod)	100 Rd/200 Rd	full-auto

# CS/LM1 7.62mm General-purpose Machine Gun

**Overview:**  
General purpose machine gun. Developed to adapt different combat situation and provide various types of fire support.

- Specification:**

  - ▶ Calibre: 7.62×51mm NATO
  - ▶ Overall length: 1100mm-1360mm
  - ▶ Weight: 11kg (vehicle mounted)  
12.5kg (with bipod) 22.5kg(with tripod)
  - ▶ Effective range: 1200m
  - ▶ Ammo capacity: 100Rd/200Rd
  - ▶ Fire mode: full-auto
- Key features:**

  - ▶ Highly customizable
  - ▶ Robust structure
  - ▶ Belt-fed

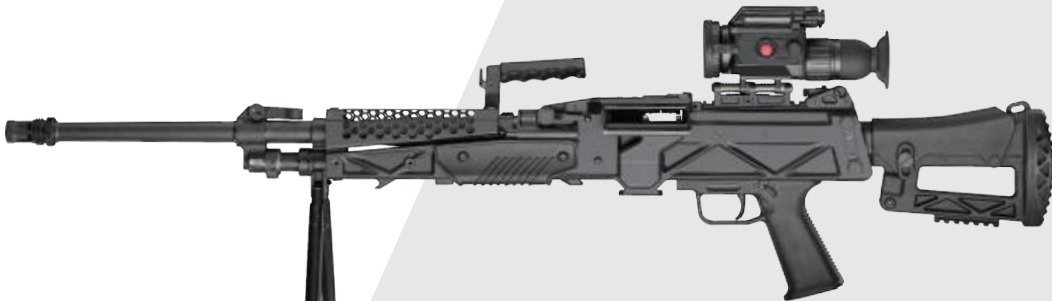

# New-gen 7.62mm General-purpose Machine Gun

**Overview:**  
New generation general-purpose machine gun with modern tactical design, picatinny rail to fit multiple tactical accessories, ploymer adjustable stock and bipod, to perform in all environments, extremely reliable.

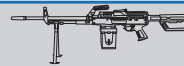

Retractable stock

- Specification:**

  - ▶ Calibre: 7.62×51mm NATO
  - ▶ Overall length: 1170mm
  - ▶ Weight: 8.5kg (with bipod)  
14.0kg (with tripod)
  - ▶ Effective range: 1000m
  - ▶ Ammo capacity: 100Rd/200Rd
  - ▶ Fire mode: full-auto
- Key features:**

  - ▶ Multiple tactical accessories attachable
  - ▶ High accuracy
  - ▶ Robust construction
  - ▶ Light weight
  - ▶ Belt fed

# CS/LMB 5.56mm Light Machine Gun

## Overview:

Developed as infantry support weapon and squad automatic weapon to provide sustained and highly-mobile suppressive fire.

## Specification:

- ▶ Calibre: 5.56×45mm NATO
- ▶ Overall length: 1040mm
- ▶ Weight: 7.7kg (w/o belt box)
- ▶ Effective range: 800m
- ▶ Ammo capacity: 100Rd belt/30Rd magazine
- ▶ Fire mode: full-auto

## Key features:

- ▶ Light weight and mobile
- ▶ Magazine-fed and belt-fed capability
- ▶ Robust and durable

Aiming devices attachable

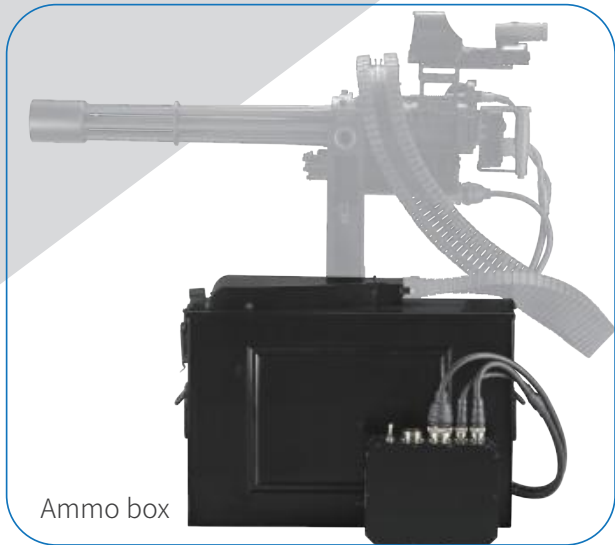

# CS/LM12 7.62mm Rotary Barrel Machine Gun

## Overview:

Developed to be fitted on mobile platforms or fortifications to provide fire support/suppression on low-flying or surface targets with ultimate rate of fire and accracy.

## Specification:

- ▶ Calibre: 7.62×51mm NATO
- ▶ Overall length: 1300mm
- ▶ Weight: 90kg
- ▶ Effective range:1000m
- ▶ Ammo capacity: 1000 Rd
- ▶ Rate of fire: 2700rpm (low) 6000rpm (high)
- ▶ Turret movement:360°azimuth, -30°to+60°elevation

## Key Features:

- ▶ External power source
- ▶ High rate of fire
- ▶ 6-barrelled rotary system
- ▶ Light recoil

# CS/LM5 12.7mm Rotary Barrel Machine Gun

## Overview:

Developed to be fitted on mobile platforms or fortifications to provide fire support/suppression on low-flying or surface targets with ultimate rate of fire and accracy.

## Key Features:

- ▶ External power source
- ▶ High rate of fire and field of fire
- ▶ 3-barrelled rotary system
- ▶ Electronic trigger control

## Specification:

- ▶ Calibre: 12.7×108mm
- ▶ Overall length: 1350mm
- ▶ Weight: 240kg
- ▶ Effective range: 1500m
- ▶ Ammo capacity: 400Rd
- ▶ Rate of fire: 1000rpm (low) 2000rpm (high)
- ▶ Turret movement: 360°azimuth, -8° to +60°elevation

# Vehicle-mounted Machine Gun Series

Overview:

Designed to be mounted on armoured fighting vehicles to provide additional fire support.

Specification:

- ▶ Calibre: 7.62×54mmR
- ▶ Overall length: 1097mm
- ▶ Weight: 11.6kg
- ▶ Effective range: 1000m
- ▶ Ammo capacity: 200 Rd/100 Rd
- ▶ Fire mode: burst and full-auto

Key features:

- ▶ Electronic/manual trigger system
- ▶ Multiple fire mode
- ▶ Light weight
- ▶ Belt-fed

## Type 86 7.62mm Vehicle-mounted Machine Gun

## 90-II AF2 12.7mm Vehicle-mounted Machine Gun

Overview:

Large calibre heavy machine gun designed to be mounted on unconventional tactical vehicles (e.g. pickup trucks), to provide fire support in all combat environments.

Overview:

Large calibre heavy machine gun designed to be mounted on armoured vehicles (e.g. tanks and self-propelled guns), to provide anti-aircraft and ground support fire capabilities.

Specification:

- ▶ Calibre: 12.7×108mm
- ▶ Overall length: 1520mm
- ▶ Weight: 54kg
- ▶ Effective range: 1500m
- ▶ Ammo capacity: 60Rd
- ▶ Fire mode: full-auto
- ▶ Turret movement: 360° unlimited azimuth
- ▶ Elevation: -6° to +85°

Key features:

- ▶ Robust structure
- ▶ Simple field stripping
- ▶ Easy conversion
- ▶ Long effective range
- ▶ Belt-fed

## W88 12.7mm Vehicle-mounted Machine Gun

Vehicle mounted

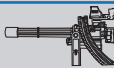

Specification:

- ▶ Calibre: 12.7×108mm
- ▶ Overall length: 1685mm
- ▶ Weight: 75kg
- ▶ Effective range: 1500m
- ▶ Ammo capacity: 100Rd
- ▶ Fire mode: full-auto
- ▶ Turret movement: 360° unlimited azimuth
- ▶ Elevation: +4.5° to +70°

Key features:

- ▶ Robust structure
- ▶ Simple field stripping
- ▶ Easy conversion
- ▶ Long effective range
- ▶ Belt-fed

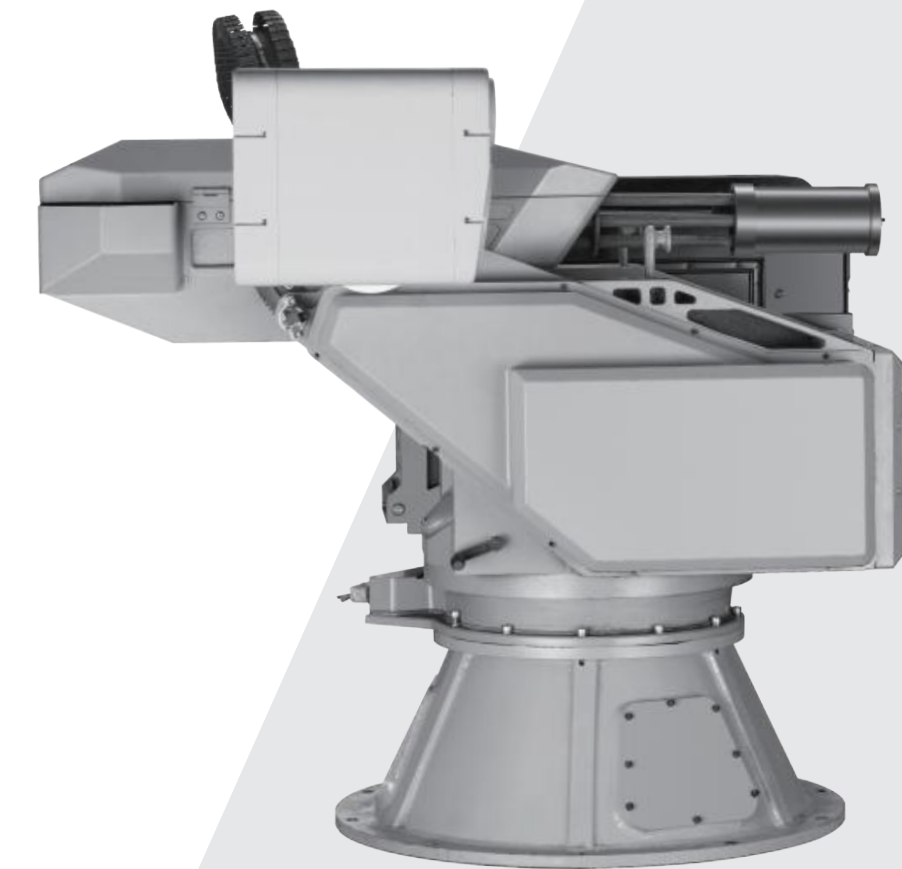

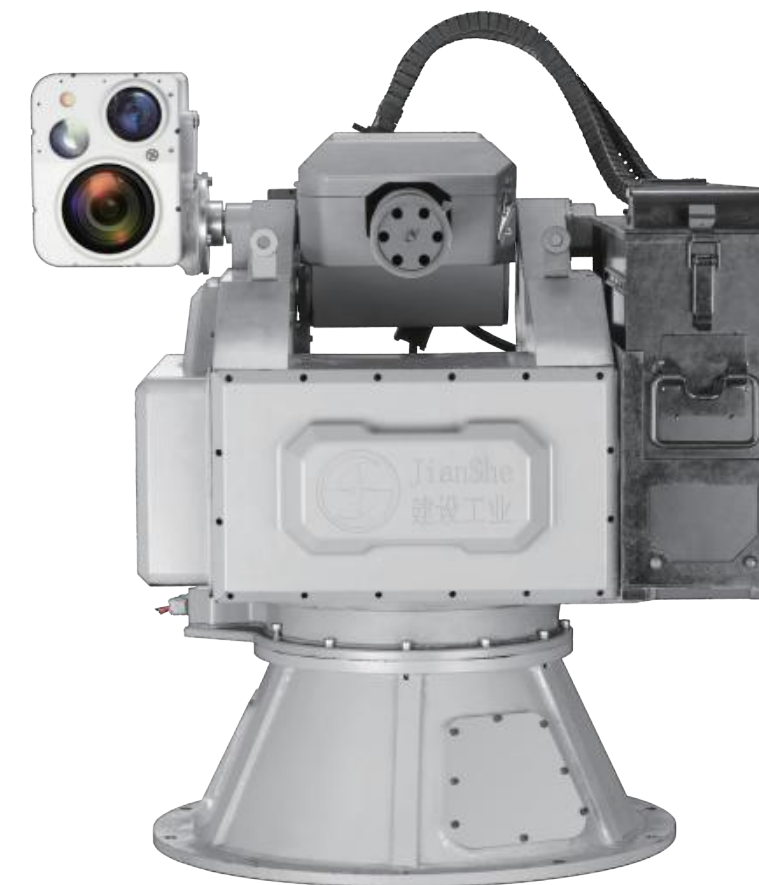

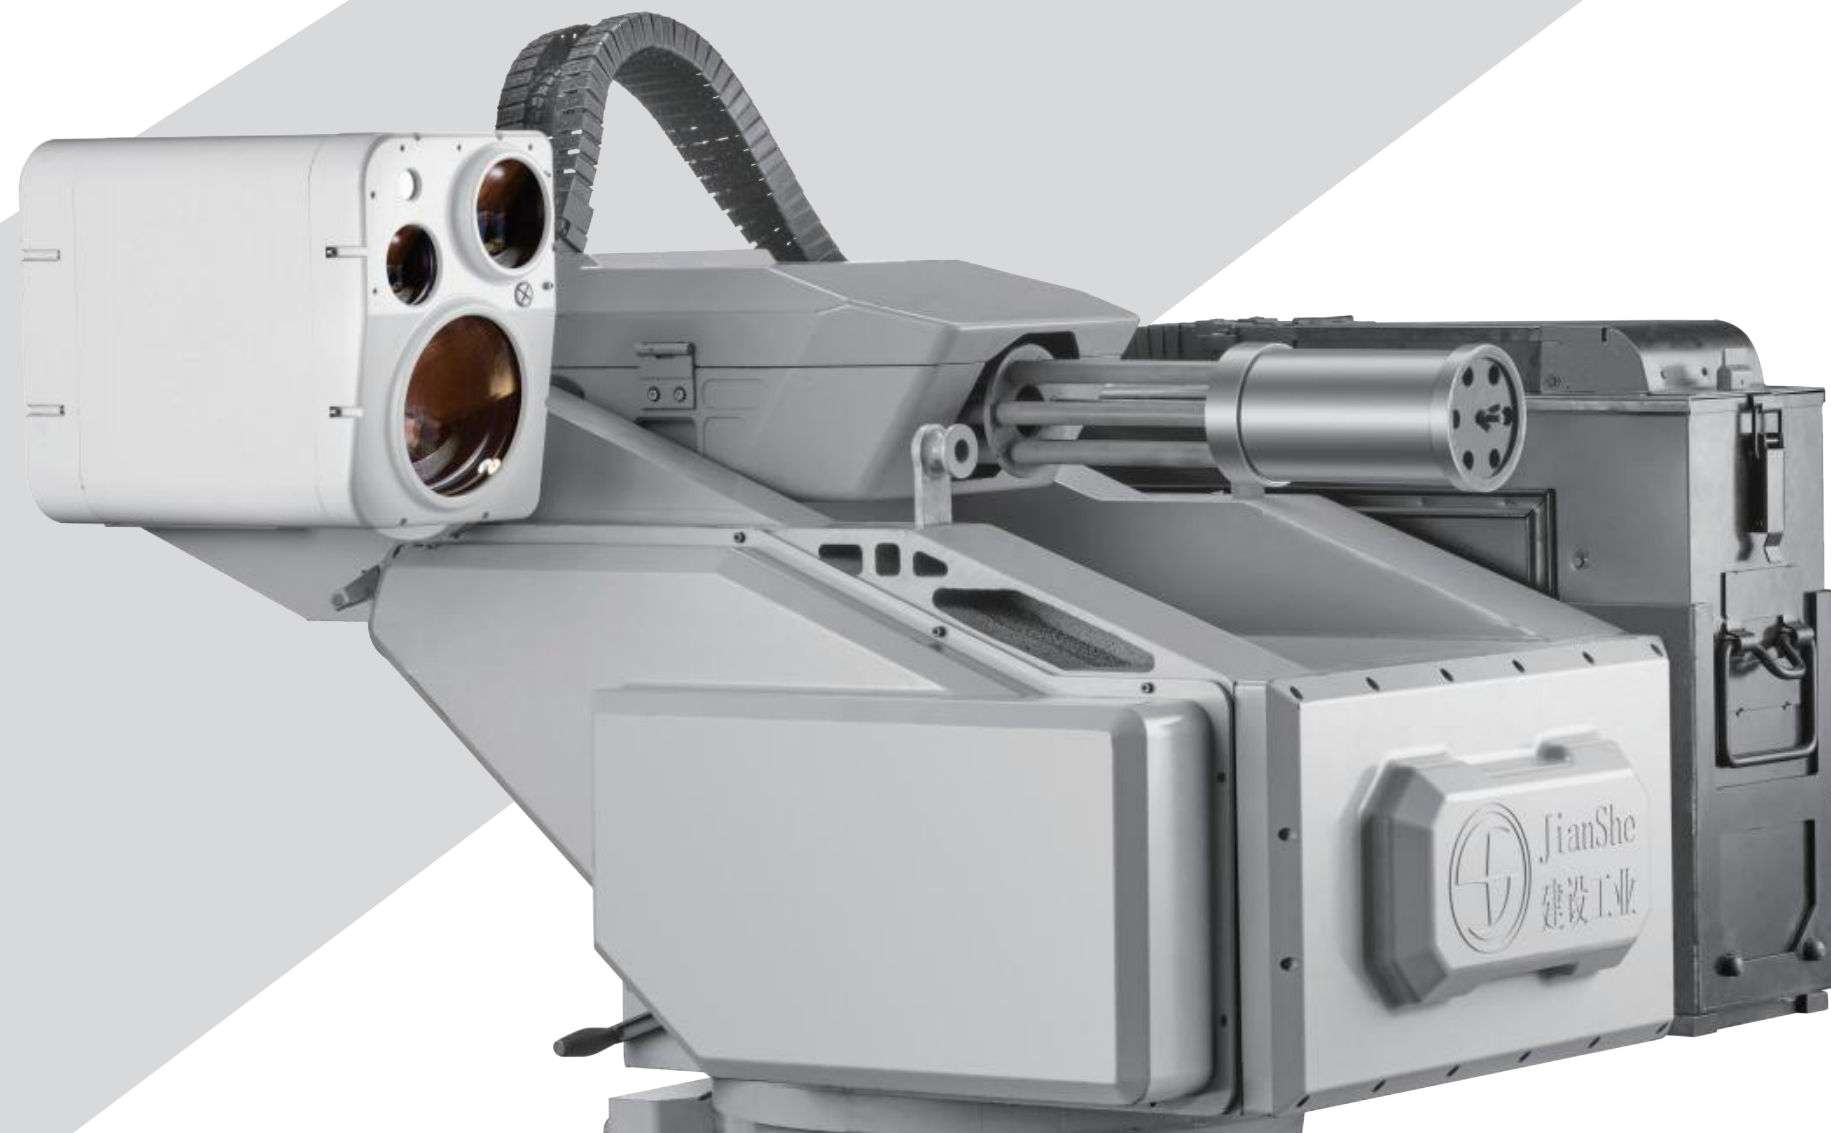

# 7.62mm Remote Weapon Station

## Overview:

Developed to be mounted on mobile or fixed platform to provide sustained fire support and defensive strikes for security purposes, equipped with 7.62mm rotary machine gun, opto-electronic sight and smart control systems, can be used in both mobile strikes and fixed point defenses, with accurate fire against surface or low-flying targets within 1000m.

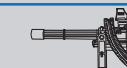

## Specification:

- ▶ Calibre: 7.62×51mm NATO
- ▶ Overall size: 1150mm×950mm×750mm
- ▶ Weight: 250kg
- ▶ Detection range: 1500m
- ▶ Effective range: 1000m
- ▶ Ammo capacity: 1000Rd
- ▶ Rate of fire: 2500rpm(standard)/6000(high)
- ▶ Turret movement: 360°azimuth/-10°to +80°elevation

## Key Features:

- ▶ High and sustained rate of fire
- ▶ Operator friendly
- ▶ Smart search and targeting systems
- ▶ High accuracy

# DRW-1 12.7mm Remote Weapon Station

## Overview:

Design to meet the stable tracking and fire demands of wide variety of patrol vessels in marinetime operations,equipped with W88 12.7mm Vehicle-mounted machine gun, smart control system and optimized human-machine interface.

## Key Features:

- ▶ Automatic/manuel target tracking
- ▶ Gyro-stabilized aiming system
- ▶ Autonomous malfunction detection and fire prohibition
- ▶ Multiple control modes
- ▶ Image recording and fault diagnosis

## Specification:

- ▶ Calibre: 12.7×108mm
- ▶ Overall size:1650mm×1050mm×1000mm
- ▶ Weight: 250kg
- ▶ Detection range: 3000m
- ▶ Effective range: 1500m
- ▶ Ammo capacity:120 Rd
- ▶ Turret Movement: 360°azimuth/-40°to +60°elevation

# CS/LK3 12.7mm Remote Weapon Station

## Overview:

Developed to be mounted on mobile or fixed platform to operate W88 12.7mm machine gun remotely, can be used to provide sustained fire support and defensive strikes for security purposes.

## Specification:

- ▶ Calibre: 12.7×108mm
- ▶ Overall size: 1650mm×1000mm×650mm
- ▶ Weight: 200kg
- ▶ Detection range: 1500m
- ▶ Effective range: 1500m
- ▶ Ammo capacity: 120Rd
- ▶ Rate of fire: 600rpm
- ▶ Turret movement: 360°azimuth  
-10°to +60°elevation

## Key Features:

- ▶ Applicable to multiple scenarios
- ▶ Multi-safety System
- ▶ Fire prohibition boundary setting
- ▶ Long effective range
- ▶ Operator friendly

## Grenade Launcher Series

### CS/LG1 40mm Grenade Launcher

#### Overview:

A single-shot 40mm modular grenade launcher designed to be attached to a rifle, capable of firing high-explosive, air-burst, smoke, incendiary, signal rounds and many others for various purposes.

#### Specification:

- ▶ Calibre: 40 x 53 mm
- ▶ Overall length: 400mm
- ▶ Weight: 1.5kg
- ▶ Effective range: 350m
- ▶ Fire mode: single-shot
- ▶ Ammo capacity: 1 Rd

#### Key features:

- ▶ Light weight
- ▶ Operator friendly
- ▶ Robust construction

### CS/LG2 40mm Grenade Launcher

#### Overview:

Based on classic full automatic design, can be mounted on tripods or vehicles, compatible with various optic sights.

#### Specification:

- ▶ Calibre: 40 x 53 mm
- ▶ Overall length: 1200mm
- ▶ Weight: 35.5kg, 65kg (with tripod)
- ▶ Effective range: 2200m
- ▶ Fire mode: full-auto
- ▶ Ammo capacity: 48
- ▶ Rate of fire: 400rpm

#### Key features:

- ▶ High rate of fire
- ▶ Operator friendly
- ▶ Robust structure
- ▶ Long effective range
- ▶ Belt fed

# Ballistic Testing Firearm Series

**Overview:**  
Developed for ballistic test and accessment of different  
ammunitions.
