

40MM MULTIPLE GRENADE LAUNCHER MARK 1S

The Milkor 40mm Mark 1S Multiple payload Grenade Launcher is a lightweight shoulder launched 6-payload launcher that has been fully qualified according to Military standards.

The Mark 1S is a standard 105mm chamber 3rd generation launcher enhancing the capabilities of the legendary 40mm MGL also known as the Milkor Y2.

Milkor has supplied in excess of 60'000 MGL's to more than 60 countries worldwide.

The Mark 1S is an area-effect launcher that can deliver 40mm payloads to an efficient range of 375m at a rapid Launching rate of 6 payloads in 3 seconds.

This positions the Mark 1S as an essential tactical tool for any combat environment.

The Mark 1S is a semi-automatic launcher designed with simplicity to offer uncompromising reliability and efficiency.

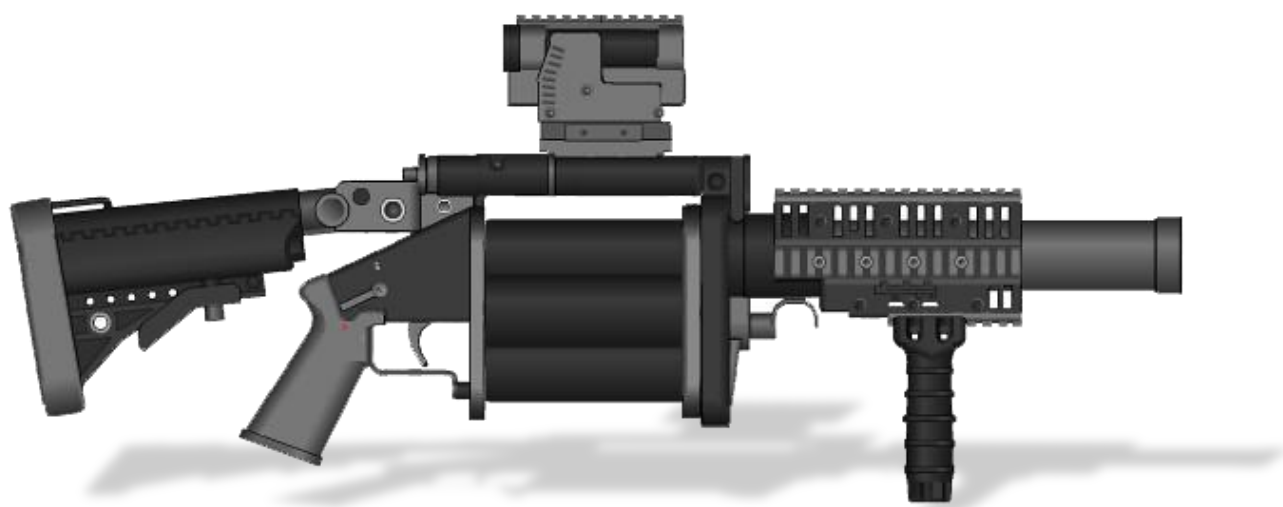

Typical use of the Mark 1S

The Mark 1S is ideally designed for use by armed forces and police where its extreme versatility can be used in a live combat or peacekeeping environment.

The Mark 1S is capable of launching a wide range of less lethal and anti-riot munitions thus offering the bearer the ability to employ the use of payloads ideally suited for the specific situation, including teargas and rubber baton projectiles for crowd control, payload and flash-bang payloads for combat situations and many more.

The Mark 1S offers supreme versatility and warrants serious consideration in an environment requiring lethal and less-lethal applications.

It can launch all standard low-pressure mil spec 40mm projectiles.
