# CANİK M2 QCB

# CANiK M2 QCB

One of the most combat-proven heavy machine guns in the world is now available with the added touch of CANiK state-of-the-art technology. CANiK engineers have redesigned and developed a .50 cal. heavy machine gun which was inspired by the famous Browning M2 which was built in 1919. M2 QCB (Quick Change Barrel) is the latest addition to Canik's arsenal of superior firearms. Canik M2 incorporates many improvements over this venerable .50 cal. heavy machine gun which has been widely used on armored and light vehicles, naval vessel as well as by infantry on a tripod mount in anti-vehicle, and anti-personal roles.

Drawing upon its know-how in designing and producing exceptionally durable and accurate handguns, Canik has achieved to double the life span of the firing pin on the M2 and to develop the most accurate barrel with the longest life span on the market. Another prominent improvement is the ability to mount a wide range of optics and illumination tools on the machine gun.

All in all, Canik M2 QCB is a tested and proven design adapted to contemporary and future battlefield demands.

- Quick changed barrel
- Barrel handle for simplifies hot barrel changing
- Side changeable retracting slide assembly
- Side changeable belt-holding pawl
- Single-shot or automatic fire

# CANİK M2 QCB

MODEL	MACHINE GUN
CALIBER	12.7 mm (.50 cal.)
Type of Ammunition to be used	12.7 x 99 Standard NATO
Weight of Complete Gun (Without Feed Chutes and Tripod Adaptor)	Max. 38.5 kg
Weight of Barrel Assembly	Max. 12 kg
Length of Gun	Max. 1.665 mm
Length of Barrel Assembly	Max. 1.145 mm
Method of Operation	Short recoil
Firing Mode	Automatic Dual Selective (Single and Automatic)
Muzzle Velocity	900 m/s (Change according to Type of Amm.)
Rate of Fire	450-650 RPM
Maximum Effective Range	1.830 m
Maximum Range	6.800 m
Barrel Life	25.000 (Stellite Lined)
Accuracy	100 m. 18cm (≈6 MOA)
Recoil force	150-250 pounds

# CANİK M2 QCB

## SET INCLUDES

- Machine Gun with Barrel: 1 unit
- Barrel Carrying Handle: 1 unit
- Breech Lock Set: 1 set (7 pcs)
- Headspace and Timing Gage Set: 1 set
- Mitten, Heat Protective: 1 unit
- Extractor, Ruptured Cartridge: 1 unit
- Wrench 3/4" - 7/8": 1 unit
- Handle, Bolts: 1 unit
- Cleaning Kit and Lubricants: 1 Unit
- User manual: 1 unit
- Extra barrel: Optional
- Tripod: Optional

## CAPABILITIES

- Embedded Software and Electronic Board Design
- Designing and Building Test Equipment and Simulators
- System Design and Production
- Data Collection System Design and Application
- Mechatronic System Design and Manufacturing
- Robotic and Control Systems Design and Application
- On The Move Antenna Control System Development
- 6 Axes Platform Design and Control

# CANİK M2 QCB

## SPARE PARTS

### **M2 Spare Barrel**

Stellite® Lined/Chrome Plated

### **M2HB to M2QCB Conversion Kit**

Stellite® Lined/Chrome Plated

### **Fixed Tripod**

### **MTN 90 Machine Gun Reflex Sight**

### **DLIRIL 50 Dual Laser Pointer & Illuminator**

### **LRB Laser Boresight**

### **MK93 Gun Mount**

### **M2 Solo Sight Mount**

- Quick Detach Bracket
- Quick Detach Bracket
- Rubberized Eyepiece for Specter DR
- Hard Case

### **Ammo Can Holder**

### **Universal Pintle Adaptor**

### **Traversing Elevating Assembly**

### **MK38-KSA Stand Vehicle**

### **Shield Bracket Kit MK93/M157**
