THE WORLD'S
MOST OPERATIONAL
MACHINE GUN

MFR56

5.56x45mm NATO

THE WORLD'S
MOST OPERATIONAL
MACHINE GUN

The MFR56 (MULTIFUNCTIONAL RIFLE) is chambered in the 5.56x45mm caliber and is a versatile firearm, serving multiple functions effectively.

It can be manufactured in two different systems OPEN BOLT and CLOSED BOLT, based on the preferences of country-specific law enforcement agencies.

MFR56

5.56x45mm NATO

THE WORLD'S
MOST OPERATIONAL
MACHINE GUN

The MFR56 weighs only 4250g, which is almost half the weight of its equivalents. With its Dual Feed design, it allows security units to be used with both a magazine and a link

The MFR56 is especially designed for local operations.

In areas and campuses that restrict the movement and maneuvering capabilities of security units, the MFR56 transforms the disadvantages of the field into an advantage for its user with its dimensions, weight and functions.

MFR56 Design and development processes have been completely completed with the tests and feedback of **SPECIAL FORCES field units**, and it has been made ready for use with realistic operation simulations.

TECHINICAL DETAILS

CALIBER: 5.56x45 mm NATO
BARREL LENGTH/quick change: 16.20"(412 mm)
RIFLING: 1/7" (177,8 mm)
METHOD OF OPERATION: Gas Operated Reloading
MUZZLE VELOCITY: 850 m/s
TRIGGER PULL: 15-30 Newton
FEED: Dual Feed (Magazine + Belt)
MAGAZINE TYPE: Polymer magazine All AR15/M16 Mag.(4179 STANAG)
MAGAZINE CAPACITY: 30 rnds
GRIP TYPE: Polymer
BELT TYPE: M27 Belt
CYCLIC RATE OF FIRE: 900-1100 cycle/minute
BURST-FIRE MODE: Semi/Automatic
STOCK: 6 axis adjustable stock 90 mm
CARRIAGE TYPE: MIL-STD 1913 Picatinny Ray
LENGTH: Close Stock 775 mm - Open Stock 860 mm
WIDTH: 3,05"(77,6 mm)
HEIGHT: 9,56"(243 mm)
ACCURATE RANGE: 550 m
MAKSIMUM RANGE: 3500 m
WEIGHT: Unloaded 4250 g (9,35 lbs)
ACCURACY: 3 MOA
BUFFER TYPE: MIL-Spec H2 Buffer
FRAME: AL7075-T6
SAFETY: 3 position safety latch

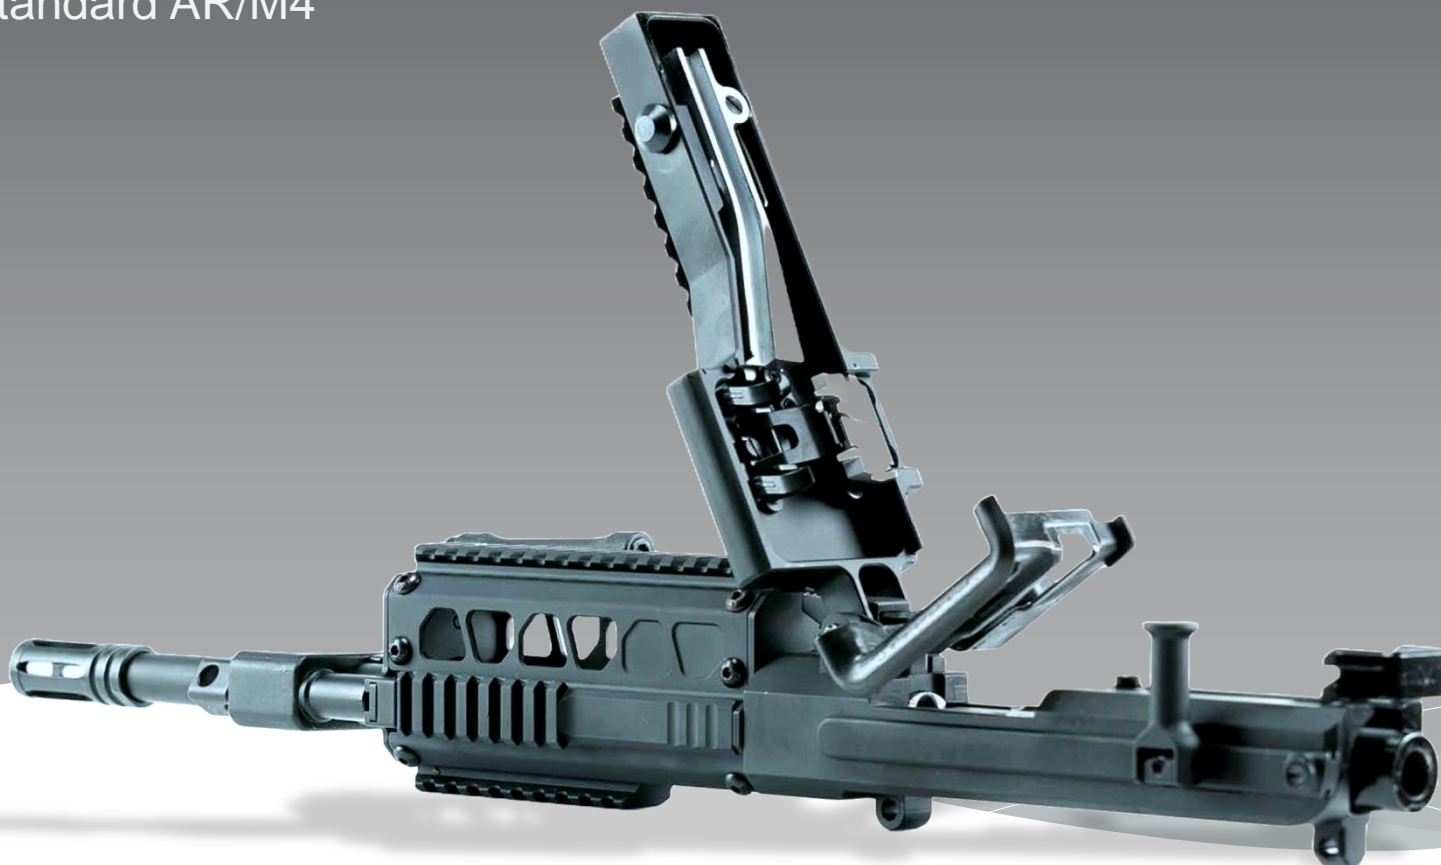

UPPER

DUAL FEED 5.56x45mm NATO

THE WORLD'S
MOST OPERATIONAL
MACHINE GUN

AR15 belt-fed upper receiver assembly is designed to interchange with standard AR/M4

UPPER

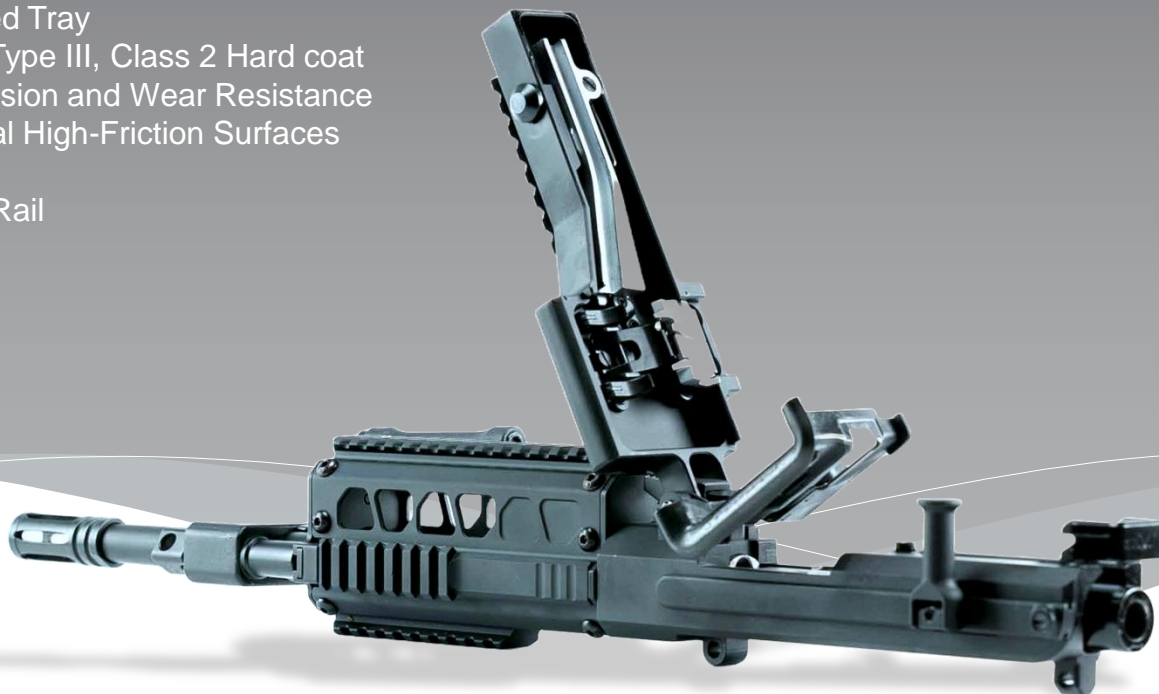

DUAL FEED 5.56x45mm NATO

THE WORLD'S
MOST OPERATIONAL
MACHINE GUN

KEY FEATURES

- Drop-On (MIL-Spec) Upper Receiver Assembly that upgrades your AR15/M16/M4 type lower receivers or rifles
- 5.56 x 45mm NATO
- 16.25" Quick-Change Barrel
- 1:7" RHT, 1/2"-28 TPI
- Short-Stroke Gas Piston Operation
- Dual Feed – Accepts ALL AR15/M16 Magazines & M27 Linked Ammunition Feed Cover and Charging Handle
- Precision Machined Billet Steel Feed Tray
- Finish – Manganese Phosphate & Type III, Class 2 Hard coat anodize - Black for Maximum Corrosion and Wear Resistance
- Dry Film Lubricant Applied to Critical High-Friction Surfaces
- Full-Auto Bolt Carrier
- Handguard Style – MIL-STD 1913 Rail
- Adjustable Sight Set
- Quick-Change Barrel Handle

Upper receiver system can be user configured in seconds without tools to adapt to virtually any mission prof
