

# PKM 7.62x54

**7.62x54mm Machine Guns PKM** are powerful automatic weapons, used as armament against enemy troops and firing points.

The PKM design is specially intended and allows operation of the weapon in heavy climatic conditions, which are typical for the regions of Middle East, south-east Asia and Africa.

## MAIN FEATURES:

- Chromium plated Barrel, manufactured by the method of cold radial forging, has increased cooling surface.
- Modern design of the Flash Suppressor-Compensator.
- Butt and Hand grip, made of high quality and resistant glass fiber reinforced Polycapromide, not effected after heating by direct sun lights, corrosion and humidity resistance, light and firm.
- Feeding by 100- or 200-round metal belt, put in a box.
- The MG-1M can be easily mounted on Tripod TAR-MG, that provides precision and efficient fire at air and ground targets.

# PKM 7.62x54

## OPTIONAL EXTRAS (PAID SEPARATELY):

- Blank firing attachment - set (bushing & frame);
- Rail for sighting devices

## SPECIFICATIONS

Calibre, mm: 7.62  
Barrel length, mm: 605  
Cartridge, mm: 7.62x54  
Sight radius, mm: 663  
Fire mode: Automatic  
Overall length, mm 1160  
Rate of fire, rounds/min 650  
Weight without ammunition box, kg: 9.0  
Practical rate, rounds/min: 250  
Muzzle velocity, m/s: 825 - with loaded 100 round metal belt, kg 3.9  
Maximum firing range, m 3800 - with loaded 200 round metal belt, kg 6.5  
Maximum effective firing range, m: 1000  
System life, rounds: 28 000  
Sighting range, m: 500  
Principle of function: Gas operated  
Ammunition box capacity, rounds: 100/200

## ACCESSORIES

Second barrel  
Cleaning rod  
Bag with spare parts consisting of:

- Firing pin,
- Extractor,
- Extractor pin,
- Locking pin of extractor pin
