

## TOR1 9x19mm Pistol

TOR1 is a striker-fired 9mm pistol designed for duty use.

It features unique ergonomics, including his new design, and a optic mounting system.

This full-size yet lightweight pistol comes with two magazines: 18+1 magazine capacity which are produce with famous brand "Mec Gar", which is preferred by users.

With a drop safety, design, and deep slide serrations, the TOR1 exceeds expectations of a duty weapon.

TOR1 full Size pistol from sets the standard for polymer pistols.

The TOR1 has everything you want and need in a pistol – superior ergonomics, reliable performance, and features that make it easy and intuitive to use.

TOR1 has a 104,8cm barrel and a full-sized frame. This means you'll get the handling and accuracy you'd expect from a standard sized pistol.

All Tori Defence pistols have several features that make easy to use and safe to handle.

The striker status indicator and loaded chamber indicator let you know without a doubt, by touch and by feel, whether or not the pistol is loaded and cocked.

The grip safety, and the firing pin block safety combine to prevent accidental discharges.

Whether you're looking for a pistol based on ergonomics, reliability or features, you're in the right place.

## FIBER OPTIC SIGHT

When we think about the advantages of fiber optic sights on a weapon we must first think about how we shoot and what we hope to achieve by changing our sights.

Fiber optics create an extremely bright and unmistakable glow that the eye comes to naturally. Let's take a look at some advantages of fiber optic sights:

- Enhanced accuracy
- Faster target acquisition
- Bright even in direct sunlight
- Easy to replace the Fiber optic itself if necessary

### RED DOT READY

### MORE ACCURATE

Most shooters find they can shoot more accurately with a red dot than with iron sights, particularly at distance and when speed is an issue.

With the dot, you can easily “holdover” for longer shots, while still seeing the entire target in the window.

Your eye will also automatically center the dot on a round bullseye target, which is easier to see clearly at distance when using a “target focus,” as discussed above.

### MAXIMUM MAGAZINE CAPACITY

Our magazines are Mec-Gar which is trusted by military & Law Enforcement specialists.

#### - 18+1 MAGAZINE CAPACITY

- Long Lasting Springs
- Carry More Power
- Self-Lubricating Polymer /Stainless Steel Follower
- Extreme Reliability
- Strengthened Feed Lips
