

SA-9 Semi Auto pistol designed on AR platform.

SA-9 is a semi-auto pistol designed on AR platform.

It is light, ergonomic and practical. SA-9 has 6.5" barrel lengths and different stock systems depending on the area and need of use.

Picatinny rails on top, bottom and sides of the barrel allow to use of compatible accessories.

This 9×19 mm semi-auto pistol has the blowback (recoil operated), closed and unlocked bolt that provides more stable and accurate shooting.

BASIC SPECIFICATIONS

- Light and ergonomic design for ease of use and transportation.
- High wear resistant, hard chrome coated barrel alloy that provides a long barrel life span.
- Different barrels lengths for different use.
- Thanks to overhead spring system gives to possibility of use with stockless, folding stock or telescopic stock.
- Thanks to the Picatinny rails on the bottom, top and sides of the barrel and the upper body, it allows the attachment and use of additional equipment.
