

ASSAULT RIFLE M21 A (5.56x45mm)

Assault Rifle M21A, in NATO calibre 5.56 x 45 mm, was designed on the basis of Kalashnikov system.

It is a gas operated rifle, and locking system is rotating bolt.

Reliability of its functioning in various climates and terrains was confirmed by strict testing methods, in accordance with military standards.

Due to this, the rifle was included in the armament of the Serbian Military.

The barrel is cold forged with chrome plated interior.

This provides durability and exquisite precision of the assault rifle.

Good solutions for ergonomics and excellently balanced weight provide mild recoil and easy control of fire.

Flash hider covers the position of the shooter.
