

SUBMACHINE GUN M21 BS (5.56x45mm)

Submachine gun M21 BS is a compact light-weight weapon.

Its design is suited for contemporary combats requiring the use of various accessory devices.

Integrated Picatinny rails, on the receiver cover and handguard, enable the assembly of various optical-electronic devices.

The reliability of functioning in various environments was confirmed by strict methods of testing, in accordance with military standards.

It is a gas operated weapon, locking system is rotating bolt and safety system provides that the weapon cannot fire before it is fully locked, thus ensuring the safety of the shooter.

The barrel is made by cold forging and the interior is chrome plated. This provides long service life and exceptional precision of the automatic rifle.
