

ASSAULT RIFLE M21 S (5.56x45mm)

Assault rifle M21S was developed from M21A, with shorter barrel, which created a more compact weapon, suited to the conditions of contemporary combat actions.

It is a gas operated weapon, and locking system is rotating bolt.

The reliability of functioning in various environments was confirmed strict methods of testing, in accordance with military standards.

The barrel is made by cold forging and the interior is chrome plated.

This provides long service life and exceptional precision of the automatic rifle.

Good solutions for the ergonomics, with excellently balanced weight, provide mild recoil and easy control of fire.
