

## IA-105

All our sets are tested rigorously to international standards to ensure that everything we sell are of the highest quality and offer the greatest protection to our customers.

CE, NIJ, ISO and BSCI approved and certified.

High Performance engineering plastic plus High Molecular Weight polythene fiber

Anti Puncture (Subject to up to 20J Kinetic energy of puncture, protection layer is not penetrated at knife point)

Anti-Impact (Subject to the Impact of 120J kinetic energy, the protection layer is not damaged or broken)

Strike power absorbing (Subject to 100J kinetic energy strike at protection layer, the colloid clay Impress does not exceed 20mm)

Fire proof Performance (After blazing sample for 10 seconds, taking off bunsen burner, sustained combustion should be not more than 10 seconds )

Protection area 1.08 m<sup>2</sup>

Weight 8 kg

Protected parts are Chest, back, up arm, forearm, side, shoulder, elbow, lap, knee, shin, head

Products are made of special strong plastic resistant to braking & impact.

The Body Protector protects the breast, the shoulders, the arms, and the legs.

Plastic parts half inflammable and sock-resistant
