

# Sporting rifle M85 Fullstock

Sporting rifle M85 Fullstock is a version of Sporting Rifle M85 Standard with fullstock and shortened barrel.

Sporting rifle M85 is based on traditional concept of locking system that Zastava uses for bolt-action rifles. Mini MAUSER is commonly accepted name for sporting rifles that use lower energy ammunition, but which kept fundamental principles of operation of army rifle from 1898.

**Zastava is a pioneer in forming of this concept; by constantly addressing the aesthetic and ergonomics requests of the customers, Zastava constantly dictates the trends in development and marketing.**

Barrel is made of chrome-vanadium steel, by cold forging. During several decades of being used, this rifle kept primacy in steady accuracy and durability of the barrel, so the method used for the production of barrels is justified, although it demands robust special equipment with long manufacturing process.

Stock is made of high-quality selected walnut.  
The user can choose between two types of stock:  
Pig Back and Monte Carlo.

Recoil pad is made of rubber, and grip cap is made of walnut.

Sporting rifle LK M85 is a safe gun; trigger mechanism is blocked by a lever-type safety.

Metal swivels provide secure assembly of the sling.

Types of trigger mechanism for this model are:

with single trigger  
with single trigger DAT  
**with double trigger**

Receiver of the sporting rifle has threads for connection with optical devices bases (which are mounted optionally).

Sporting rifle has iron sights.

Sporting rifle M85 in caliber .22HORNET is fed from a detachable magazine.

Standard finish of metal parts is blue, while the wooden parts are oiled and polished.

CALIBER (mm)	ROUNDS CAPACITY	WEIGHT (KG)	BARREL LENGTH (mm)	OVERALL LENGTH (mm)
