

Sporting MP Precision Fullstock

Smallbore Rifle MP Precision Fullstock is a version of model MP Precision with fullstock and shortened barrel.

Characteristics of small-bore ammunition combined with the characteristics of Zastava's small bore rifle give the shooter a real pleasure in sports hunting of small game or in sports shooting.

Extremely high precision, low energy of the bullet - extremely low recoil, low cost of weapon and ammunition make this weapon interesting in the whole world market.

Almost anyone can find pleasure in shooting: low recoil and precise shots are a pleasant surprise even for inexperienced shooters.

Factors that give the MP PRECISION exceptional precision and accuracy are:

- Mauser system rotating bolt,
- Cold forged barrel,
- Selection of design chrome-vanadium steel.

MP stock is made of selected quality walnut.

MP is a safe weapon; trigger mechanism is blocked with a lever-type safety.

Metal swivels provide secure fastening of the sling.

The receiver has threads for the assembly of optical sight mounts (that are provided optionally).

MP has iron sights.

Standard finish of metal parts is blueing, while the wooden parts are oiled and polished.
