

KIRO MORPH Conversion Kit

Transform your Glock pistol into the ultimate PDW (Personal Defense Weapon) with the KIRO Morph, a cutting-edge conversion kit designed in collaboration with law enforcement and combat experts.

The KIRO Morph™ is the perfect alternative to MP5-style submachine guns, offering unmatched versatility and performance.

This revolutionary pistol caliber carbine (PCC) upgrade is ideal for law enforcement, security professionals, home defense, and recreational shooting enthusiasts.

With the KIRO Morph™, you'll experience enhanced accuracy, rapid deployment, and exceptional stability, all in a compact and durable design.

KIRO Morph 19 – Features:

- The smallest form factor on a full pistol chassis – “compact conversion kit”.
- Allows for rapid deployment using spring-loaded brace.
- Provides increased stability and allows for higher accuracy and faster target acquisition.
- High durability and reliability with aircraft grade aluminum frame.
- Includes top, sides and bottom picatinny rails for maximum customizability.
- Charging handle can be used in both sides (ambidextrous).
- Polymer pistol adapters to minimize pistol wear.

Can be used in conjunction with long barrels and suppressors.
