

DT26X PPK

Delair-Tech UAVs powered by Applanix®

Unrivalled package for **high accuracy** mapping

1 DT26X UAV

2.5 hours endurance, 150 km range

1 DT-3BandsX sensor PPK (Applanix)

GSD 2.1 cm/px for 10 km² coverage, 3.2 cm accuracy at 150 m AGL

1 Baby Bear Antenna

6.5 km range for control & command, wireless connection

1 UAV battery + charger

1 UAV remote control

1 DT-Launcher catapult (height/width/thickness: 138 cm/50 cm/20 cm)

1 DT26X-Rugged case (height/width/thickness: 118 cm/65 cm/58 cm)

1 Accessory kit (wing joiners, fasteners, disloc. shims, pitot tube x3)

2 Solapp licenses

1 POSPac license

1 10-day training course for 2 pilots including PPK module + video tutorials

1 Delair-Analytics trial (photogrammetry process for 500 ha)

1 Technical support (hotline, software upgrades, video tutorials)

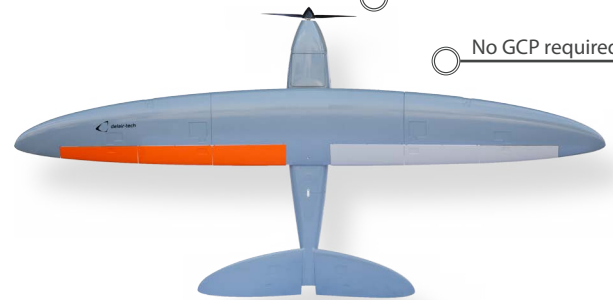

1 One-year warranty

○ No base station needed

○ High precision GPS & IMU

○ Survey grade RGB sensor

○ No GCP required

Advanced features

- 2 Additional Solapp licenses
- PIX4D
- Correlator 3D
- Trimble R6
- SmartBase
- Mama Bear Antenna
- Mama Bear-Bag
- Sat Bear Antenna
- 3G
- Additional training for 1 pilot
- On-site training
- Spare parts

DT26X PPK

Advanced features

2 additional Solapp software licenses

Full-featured flight control software designed by Delair-Tech

PIX4D software license

Photogrammetric software for enterprises

Correlator 3D license

Photogrammetric software for enterprises

Trimble R6 Base

Industry-leading GNSS positioning for use as mobile reference station or as ground control point positioning tool

SMARTBase applanix

Create a virtual reference station exactly where you need it for even higher positioning accuracy

Mama Bear Antenna

(up to 30 km range)

Includes transport case, antenna battery, 30 km range datalink and C2 motorized tracking antenna

Mama Bear-Bag

Light, handy transportation. Capacity: 1 antenna

Dimensions: height/width/thickness: 48 cm/45 cm/28 cm

SAT Bear Antenna

Connect your Mama Bear antenna to the Internet via satellite to broadcast your live video

2-year contract=20 hours of broadcast surveillance video per month (requires Mama Bear antenna)

3G connectivity for two years

100 MB/Month for two years = 70 hours of C2/MB

0.90 €/MB (beyond 100MB/month)

(requires Mama Bear GCS)

Training

Additional pilot

On-site training

Additional spare parts
